Power Saving
Powered by
Solar Energy

Noise Cancellation
Advanced noise &
Echo Cancellation

Auto Power
Auto power on/off
with motion detection

Feather Weight
Ultra small & light

Multipoint
Pair two phones
simultaneously

Fully portable and drawing all the power it needs from solar energy, the Solar-Motion Solar Carkit is an ideal and eco-friendly hands-free solution. With its built-in Echo Cancellation and Noise Suppression systems, the Solar-Motion Solar Carkit provides impeccable full duplex sound quality in even the most noisy of environments. Using motion detection, the Solar-Motion will automatically turn on when you get into the car, and turn off when your phone is out of range. The Solar-Motion Solar Carkit is capable of pairing with multiple handsets at once.

Product Features:

- AutoPowerOn when user enters the car
